REFERENCES

The diversity of the projects we have carried out reflects the importance – indeed the indispensability – of mobile telecommunications.

We handle an enormous variety of assignments and build a wide range of systems for the wireless and mobile network operators, system vendors and government agencies who are among our customers.

Our references

- More than 6000 outdoor GSM 900/1800/UMTS stations
- More than 2000 in-house GSM 900/1800/UMTS stations in airports, railway stations, educational institutions, conference centers, shopping centers, prisons, hotels and sports stadiums
- Radio and television translators
- VRK FM emergency broadcast system
- Telepage Swiss
- Natel B and NMT900
- RIPOL data retrieval
- Digital synchronous wireless network
- VZFK90 in-train wireless network
- Wireless railyard communications
- Intercoms in fire and rescue vehicles
- GSM-R
- Swiss POLYCOM public safety radio network
- Service in many national highway and railroad tunnels
